Approved cars for iZi Kid i-Size provided that the car is equipped with ISOfix

iZi Kid i-Size is an universal i-Size child restraint system. It is approved to regulation R129 to use in all vehicle positions marked with the i-Size logo. The iZi Kid i-Size is also suitable for fixing into the seat positions of the cars listed below, providing approved ISOfix points are fitted and available. Seat positions

in other cars may also be suitable to accept this child restraint, however we have not yet tested that Combination of car and iZi Kid i-Size seat. If in doubt, consult either BeSafe or the retailer. For updated carlist see: www.besafe.com

It will fit vehicles with positions approved as ISOfix positions (as detailed in the vehicle handbook), depending on category of the child and of the fixture. The mass group and the ISOfix size class for which this device is intended is : D.

When the support leg is positioned on a storage compartment in front of the car seat, this compartment has to be completely filled up with Expanded Poly Styreen foam (EPS), so that the cover can hold the forces of the support leg. Consult the car dealer, if they offer a special solution. When the floor under the floor support is insufficient to hold the forces you can not use the iZi Kid i-Size in this position of the car.

Carseat positions marked with * can have a storage compartment in front of the seat. ISOfix anchorages in the passenger seat (position 1) are normally offered as option, so depending on the model this position can be available or not. Installation in the rear seat of a car can limit the space for a passenger in the front seat. Always check iZi Kid i-Size in your car to verify if the available space is acceptable for your situation.

! Notice: DO NOT use on a passenger seat fitted with activated frontal airbag.
