

pipaFIX™ base

car seat-to-vehicle fit guide

nuna®

vehicle fitting information

This car seat base is classified for “Semi-universal” use. It is suitable to fix into seat positions in most cars. The numbers on the diagram below correspond with the vehicle fitting positions listed in the following pages.

Before you purchase the vehicle, check that it is equipped with the appropriate anchorages.

ALWAYS give priority to the rear seats of your vehicle.

DO NOT fit your child restraint onto a vehicle seat fitted with an airbag, unless it can be, and is deactivated. Death or serious injuries can be caused by an activated AIRBAG system.

- Your child restraint can be fitted
- ✗ Your child restraint can not be fitted
- ⚡ Electric or hybrid vehicles
-  i-Size vehicles

SB! Vehicles with under floor storage boxes.

If your vehicle is not listed in this manual or it is not marked with either a • or ✗ then please refer to your vehicle’s handbook or contact the manufacturer for further information. Seat positions in other cars may also be suitable to accept the child restraint. If in doubt, consult either the child restraint manufacturer or the retailer.
